

Martin Schiesser
Vice President, Digital & Information
Garrett - Advancing Motion

Martin Schiesser is vice president of digital and information for Garrett - Advancing Motion, a global leader in turbocharging technologies, electric products and automotive software. Schiesser leads Garrett's worldwide information technology organization. Schiesser's responsibilities engage with all aspects of Garrett to generate technology solutions and drive execution of growth and productivity, enabled through existing and emerging information and digital technologies.

Before the spinoff from Honeywell, Schiesser held the same role for Honeywell Transportation Systems. Before joining Honeywell, Schiesser was the head of digital enterprise for Tata Consultancy Services, where he helped clients transform their business via game-changing digital solutions, using big data, artificial intelligence, the cloud, mobile, Internet of Things and social media.

Schiesser started his career at ABB High Voltage Division and rapidly became the head of business process engineering. He then co-founded MyAx, a cloud-based knowledge management system, before returning to the corporate world in 2001 working in various management positions in software and consulting (SAP, Lodestone, Accenture). He also co-founded Firefly Information Management, focused on innovation and new data management technologies.

He holds a master's degree in economics from the University of St. Gallen and a bachelor's degree in engineering from HTL Burgdorf. Schiesser is based in Rolle, Switzerland, and reports to Garrett President and CEO Olivier Rabiller.
