

**Milind Godbole**  
**Vice President, North America**  
**Garrett - Advancing Motion**

Milind Godbole is vice president of North America for Garrett - Advancing Motion, a global leader in turbocharging technologies, electric products and automotive software. Godbole is focused on maximizing market opportunities for automotive software and electric product offerings while capturing new growth in Garrett's rich portfolio of turbocharging products, where common powertrains are developed based upon aggressive environmental and fuel efficiency regulations. Godbole leads Garrett's efforts to help strengthen and grow its leadership position in North America.

Before his current role, Godbole served as the managing director of the Honeywell Transportation Systems business in India. After joining Honeywell in 1999, Godbole ran the building solutions business for the India region, composed of India, Sri Lanka, Bangladesh and Nepal. Godbole was responsible for the profitable growth of the business in the region, ensuring high customer satisfaction levels and continuous leadership development.

Before joining Honeywell, Godbole spent nearly 14 years in the building solutions industry, including eight years in sales and planning for a leading electromechanical services company in the Middle East.

Godbole earned his bachelor's degree in mechanical engineering from the College of Engineering, Pune, India, and a master's degree in business management from the Symbiosis Institute of Business Management, Pune. He is based in Plymouth, Michigan, USA, and reports to Garrett President and CEO Olivier Rabiller.
