

CORPORATE OVERVIEW

Garrett Motion is a cutting-edge innovator and technology leader, serving customers worldwide for nearly 70 years with passenger vehicle, commercial vehicle, aftermarket replacement, and performance enhancement solutions. We are passionate about innovating for mobility and beyond, offering a differentiated portfolio of emission-reducing and zero-emission solutions. Garrett's technologies enable sustainable automotive and industry transformation.

LEADING TECHNOLOGY INNOVATOR

Garrett is a trusted, true expert in the fields of emission reduction and energy efficiency technologies. We deliver the world's most advanced turbochargers, electric boosting technologies for hybrids and electrified powertrains. Building on decades of innovation, we have developed advanced inhouse capabilities in turbomachines for air compressors, high-speed motors, power electronics and control software. With our zero-emission electrification technologies, such as hydrogen fuel cell compressors, E-Axle and E-Cooling compressors, we are setting a new standard in sustainable mobility. Additionally, Garrett's differentiated automotive software solutions address global macro issues including cybersecurity, energy management and guided diagnostic technologies.
